

WELCOME TO THE WORLD OF NOISE REDUCTION

Greif-akustika, s.r.o.

- sound pressure measurement
- sound intensity measurement - **new**
- airborne transmission loss and impact sound measurements
- reverberation time measurement
- vibration measurements

noise source
identification

- consultations
- noise maps
- acoustic calculations
- noise studies
- noise reduction measures
- more than 30 years experience

problem
analysis

www.greif.cz

- modern production facility
- ISO 9001 certification
- ČSN EN 3834-3 welding certification
- ERP system for documents and manufacturing control
- verified suppliers

noise reduction
measures
manufacture

- technical specification of measures
- visualisation and design in 3D
- CFD flow simulations
- 3D strength analysis
- authorized engineers and technicians

desing and
optimization
of measures
